

NEW ENDURANCE CLUB

A group of enthusiastic endurance riders from Kyogle has formed a new club known as

The Kyogle Country Endurance Riders (KCER) inc.

The major goal of the club is to organise and conduct a new ride later this season. The ride will be based at the Wiangaree Campdraft Grounds 15km North of Kyogle along the Summerland Way, providing both good facilities and ease of access to riders both sides of the border. Interestingly Wiangaree is not new to hosting endurance events with one of the earliest NRZ rides being run in the area back in the early 1980's.

Track preparation is well under way and will offer spectacular scenery and a balance of country road and bush track riding with abundant natural water through some of the most picturesque valleys at the foot of the Border Ranges. KCER members are looking forward to sharing this with their fellow endurance riders. While some sponsorship for the ride has already been secured KCER would be most appreciative of any further offers. More detailed information and particulars on the ride will be available at a later date.

New members are welcome and KCER members are happy to mentor riders new to the sport of endurance riding.
