SIOUX REID profile

- TPR, previous Swabbing Steward, Enthusiastic experienced Strapper
- Started Moyston Endurance in 2011 as the Ride Organiser/dogsbody and have run many rides, including several State Champs, since.
- AERA FB Admin, VERA FB Mod (makes me sound progressive when really I'm terrible at IT!)

Horsing Around; First known sighting of me with a horse was when I went missing in England in winter and was eventually found curled up in a stable with a Shetland pony way down a busy road. I was 5yo and have no recollection of knowing the pony or the stable!

Rode PC as a kid, rode my bike to the horse with the saddle over the handlebars and then riding 10km to get to PC meetings. And then in reverse order.

Started endurance in 2001 driving our daughter, Erin, to events. Erin no longer does endurance but I loved it and have stayed ever since. Best part, Horse Welfare. Love what the sport of endurance stands for and how the competitions work for the horse.

Rode a 20km once. Wanted to call for a float pick up at the 10km mark! In my defence the other riders were going gangbusters and I was not that ride fit.

Bred quite a few horses over the years. Arabians, Anglos & Gypsy Cob crosses.

My Uncle was the World Harrowing Champion, several times. And an respected breeder of Shire horses. And whilst I can't take credit for that, I remember Uncle Fred as an amazing horseman.

Owned several endurance horses and enjoyed seeing them compete and complete many times. A few VO, but what horse doesn't at some stage?

 Business Hours; Partner in our Dental Practice, Registered Dental Assistant (bit rusty), Reception & Bookkeeping

Evidence l've ridden!

Will never complete a Quilty but hardly missed being there since 2011. Got to try on a buckle at an AERA meeting once. Closest I'll get, unfortunately.

Still have one horse coming up through the ranks and enjoying watching his journey.
